Collection Number V-28-1-2

Accession Number 1969.29
1994.22

Revised and augmented 2019

COLLECTION DESCRIPTION

This collection includes correspondence, research, articles and some engineering drawings concerning bridges in Tompkins County. Included is a 1964 report on the 29 bridges in the city of Ithaca and preliminary studies of possible suicide barriers for Ithaca bridges. In addition, there is a collection of surveys, notes and drawings of bridges in the County done by students of an Engineering class at Cornell, with USGS Quad maps and State Highway Department maps marked with locations of the bridges surveyed.
